

THE REAL SUFFERERS IN ENGLISH STRIKE

Children of the strikers photographed at Moreley when the strike was at its height. This is the first actual photograph of the English strike published here.

OILED ROAD AS ASKED
IS WON BY CLUB

(Continued from Page 1.)

county roads, not including territorial work, \$120,000, and that when the work was done there was practically nothing to show for it, and very little was spent, comparatively, in the Warren district. "Make one mile of good road, have one piece for an example of what can be done," he said.

Need of Legislation
Supervisor Riggs brought up the point of the introduction of a bill to abolish the office of state engineer, and also of a resolution to bond the state for roads. If such bonding be done, he wants a provision in the act authorizing the bond for so that a certain proportion of the sum raised from that county, or of the pro rata share of the bond issue, shall be devoted to the roads of the county so paying.

Mr. Cunningham made the point that this was all Warren District asked from the county, and was just what the delegation was asking.

H. A. Hughes said, "Keep a good road when you get it. None of you would hesitate to buy axle grease or oil for your buggy or automobile to keep it from becoming out of repair. Why not, then, spend a little money to oil the road in question and to make the work permanent?"

Supervisor Riggs said he favored oiling the road if there was the money to do so, and it was suggested by Jesse Youkin that the good roads committee of the club hold a meeting and report back to the supervisors the cost. Supervisor Riggs suggested that the committee give a detailed estimate of the cost of the work, and tell the board just what other work the people of the district would want what the district considered its fair share of appropriation. This suggestion was acted on favorably, and the delegation retired from the room.

Statements are Presented
On the reassembling of the meeting Chairman Haddock of the Good Roads committee gave figures which put the cost of the proposed work at \$1,400, and said that at a rate \$2,000 would more than cover it. He itemized all of the proposed expense, and \$1,400 will be nearer than \$2,000, it is conservatively estimated.

SHE QUIT COFFEE

And Much Good Came From It
It is hard to believe that coffee will put a person in such a condition as it did a woman of Apple Creek, O. She tells her own story:

"I did not believe coffee caused any trouble, and frequently said I liked it so well I would not quit drinking it, even if it took my life, but I was a miserable sufferer from heart trouble and nervous prostration for four years.

"I was scarcely able to be around at all. Had no energy and did not care for anything. Was emaciated and had a constant pain around my heart until I thought I could not endure it. I felt as though I was liable to die any time.

"Frequently I had nervous chills and the least excitement would drive sleep away, and any little noise would upset me terribly. I was gradually getting worse until finally, one day, it came over me and I asked myself what is the use of being sick all the time and buying medicine so that I could make myself ill?"

"So I thought I would see if I could quit drinking coffee, and got some Postum to help me quit. I made it strictly according to directions and I want to tell you that change was the greatest step in my life. It was easy to quit coffee because I had the Postum which I like better than I liked the old coffee. One by one the old troubles left, until now I use it in splendid health, nerves steady. Never have any more nervous chills, don't take any medicine, can do all my housework and have done a great deal of sewing."

"My sister-in-law, who visited me this summer, had been an invalid for some time, much as I was. I got her to quit coffee and drink Postum. She gained five pounds in three weeks, and I never saw such a change in anyone's health."

"There's a reason—
Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest."

The committee decided that \$3,000 would be a fair amount for upkeep and \$3,000 for improvements on roads out of the district, but of interest to it, and that of a fair share of the funds available, placed at \$11,000, there still remained \$5,000 which Warren district was quite willing should be spent anywhere out of the district where needed most, say Wilcox, for instance, directed at Supervisor Riggs.

President McVay, of the Commercial club, spoke briefly on the matter, and explained a number of points upon which he was questioned by the board, to the satisfaction of the members. Bob Soule spoke for one mile of finished road and no improvements on it needed, and E. A. Towrea said he favored the greatest good for the greatest number, and to those who paid most of the tax.

The board then took a vote on a proposition offered by Supervisor Riggs that the road superintendent be authorized to expend not more than \$2,000 for the oiling of the strip of road in question. The motion prevailed, and the pleased delegation of visitors at once adopted a vote of thanks to the board for the courteous treatment extended.

All Sections Represented
Among the forty-two from the district who motored to the county seat, all three towns of the district were well represented. Naturally the largest representation was from Bisbee, but the Lowell representation was especially strong. Warren was also well represented.

At the close of the meeting, Mr. Riggs spoke further of the need of road legislation, and the board of supervisors was informed that it would have the delegation behind it for the enactment of such a law as is desired.

The party made the outward trip through the canyon, and returned through the valley, passing over, as they entered town, the strip of road which had occasioned the trip to Tombstone, and having a practical demonstration of the need of the work which they had just succeeded in arranging for.

Last night the Commercial club was generally congratulated on its great achievement for the good of the district, which means so much for the comfort of residents of Lowell, and to all who use the road for any purpose.

**FLOODED AREA
IS INCREASED**

(Continued from page 1.)

with scattered villages by telephone, but with little success.

GOVERNMENT ISSUES BULLETIN

WASHINGTON, April 5.—The weather bureau issued this special river bulletin tonight: "The flood situation in the Ohio and Mississippi river valleys continues to be as previously indicated and no additional forecasts have been issued except for Evansville, Ind., where there will be another rise of 1.5 or 2 feet in four or five days from the flood wave now in the Cincinnati district."

The bulletin says the break in the levee at Hickman will flood a territory 40 to 50 long and five to thirty miles wide. The break will relieve the situation at Cairo and New Madrid before morning. The situation within Cairo is considered safe. Memphis will reach about 45 feet in 48 hours unless a break occurs in some part of the Arkansas levee. Helena will reach 55 feet in two days.

Is up to the City

If the city of Bisbee is to be represented in the booklet of county roads in Arizona, which is being prepared by the Arizona road roads association, the city must act in its governmental capacity. Mr. Hamblin, the representative of the association does not believe that the business men of the city should be asked to pay for the map of the city, as it is purely an official proposition. The city council has the matter under advisement at present.

BACK INTO FOLD

CHICAGO, April 5.—Missing since the close of last season, Matty McIntyre, outfielder of the White Sox, reported today. Explaining his absence, he said he had been playing ball in Cuba, and thought Calhoun knew his whereabouts. He said he would sign a contract tomorrow.

'MADAM SHERRY' IS
ALL THAT IS ASKED

The Finis was placed on the theater season in Bisbee Friday night, and it may be said, without asking pardon for giving utterance to a bromide, that "The best came last." It would be hard to separate "Madam Sherry's" reputation from "Madam Sherry," or to tell which and how much of which survived to be seen in Bisbee in 1912. But what matters it when still, yet, "Every Little Movement Has a Meaning All Its Own."

For "effective entrance," the minister's cat has nothing on that song for "returning." Occasionally there comes along a song that makes a cousinly orchestra of the human race, and that tiny movement song is one of them. The audience could hardly wait for the curtain of the last act to try out anew the song of meat and meaning, and "Madam Sherry" will be a haunting memory in Bisbee for weeks.

This is to give it, hand it and render it into Marie Flynn, the dainty, dancing life ingenue, who played, sang, danced the part of Yvonne. The little movements are best rendered by her, and she gives them meanings distinctively and particularly possessive. Her progress from convent walls through the seven ages of sabbath to the feature of "Madam Sherry," her voice is as slender as her ankles, but like the latter, the voice nimble threads the bars of the theme song like the ghost of a dream-smile.

"The Birth of the Butterfly" was one of the prettiest songs heard in Bisbee this season. No apter comparison suggests itself than that the pitter-patter chatter-box of tardy drops of summer rain falling from the eaves. It was great.

To prize separately the song bits of "Madam Sherry" would be to infringe upon the splendor of the song-book man. The songs were the prettiest that have been seen in Bisbee this year, with the possible exception of "Red Rose." The parts were superbly played, and the taste of singing "Madam Sherry" will linger long to tide play-actors over the torrid summer waste of meaningless movements.

EASTER PROGRAM

METHODIST EPISCOPAL CHURCH

Morning—11 a.m.

Hymn No. 159. "Christ the Lord is Risen Today."
Prayer.

Solo, selected. Mrs. C. W. Wallace Lesson, Easter Reading. Hymn "Gloria."

Second Lesson.

Offertory. Mrs. R. O. Owen Hymn No. 168. "I Know that My Redeemer Lives."

Baptism of children and reception of members.

Anthem, "King of Kings." Simper.

Sermon.

Hymn No. 159.

Doxology.

Benediction.

Evening Service, 7:30 p.m.

Anthem, "Our Great Deliverer."

Hymn No. 161.

Ladies' quartette "Joy of Easter Day."

Solo. Mrs. W. Allen. Miss Stella Burrows. Mrs. E. G. Decker. Miss Maude Hiller.

Lesson, by pastor.

Anthem, "God Shall Wipe Away All Tears." Fields. Choir.

Hymn No. 162.

Solo, "Jerusalem." Parker.

Male quartette "Jesus the Conqueror." Carter.

Messrs. L. and H. Warrington. Butter and Tombs.

Anthem, "As it Began to Dawn." Vincent. Choir.

Hymn No. 157.

Doxology.

Benediction, by pastor.

Soprano—Mrs. C. W. Allen, Miss Perry. Miss Martha Harris, Miss Stella Burrows.

Altos—Miss Ely Decker, Miss Maude Hiller.

Tenors—Leonard Warrington, Henry Warrington.

Bassos—Joe Young, Sam Harris.

James Temes.

Mrs. Davey, pianist.

M. L. Butler, director.

FINDS HERMOSILLO
IS PROSPEROUS AS
IS ALL SONORA

Mining Writer Sees No Sign of Disturbances in Over Border State

IMPROVEMENT STEADY

(By Chas. A. Dinsmore)

HERMOSILLO, Sonora, Mex., Apr. 5.—The business interests of this state, and of the capital city, are in better shape than they have been for years; there is no "war" in Sonora; there is no fear for the future; there is no lessening of the interest of investors from the outside; and best of all there is no cessation or lessening of improvements with the many large and small enterprises in the hands of Mexicans or foreigners. In the city itself many important improvements are under way steadily—the new Banco Occidental building, the new Federal building, the grading of the streets and paving, the erection of a great many handsome homes, the increase in capacity of several of the industrial enterprises. In the country tributary more land is in cultivation, more new ground being prepared for the next year's crops, and real country homes are being erected at many points. But one mine in the entire state is closed down, and this one because of strictly local conditions. Other mines, isolated and in charge for the most part of Americans, are operating steadily—La Dura, Minas Mexico, Tonichi. I could name a hundred or more. The yellow streak has not shown itself. If there is one, in any of the instances of big things—a good many "little fellows" have accepted rumor for fact, have taken the scare heads for statements of actual happenings, have taken Taft's message to mean intervention, and have "hiked" in a minute the rails when it thinks it is scared. When these people have reached the states they have been approached and asked about conditions in Mexico. Well, now, you couldn't expect any of them to say they were just simply scared senseless—could you? So, they have hatched up stories that have made Minchenhausen roll so often in his grave that a cloud of dust arises from it constantly—and I have an idea that newspaper men's brains have assisted wonderfully in the making of those stories so readable as to be of breathless interest. But they weren't true. So, as I say, the business of this city and state is forwarding as of yore, with the most optimistic feeling generally that one ever encountered. The marketing of the big crops—cottons, garbanos, grains, frijoles, is going on constantly, and profitably—the crops have been fine. The merchants continue to buy and receive large quantities of goods, and contractors in all lines are constantly busy. The future is extremely bright for this whole section, and as this proves true the city will advance rapidly.

New Irrigation Project

A concession has been granted a strong company for a dam across the river at Hermosillo. This irrigation project will bring in a tremendous acreage of excellent land—like the silt of the Nile. The intention is to start this enterprise during this year and thereafter push it rapidly to completion. Harry Smith and I went over a portion of the big valley to the west of Hermosillo the other day—and it amazed me. Here is a tract of land 30 by 50 miles in extent, depth of soil 100 to 150 feet, made up of the detritus from the hundreds of miles traversed by the river prior to reaching the Seven Sisters. The Seven Sisters are towering mountains—stand in such manner that they in measure dammed the river, causing it to spread over a great area and to carry with it the minute particles of soil brought from above, and in the thousands of years this valley has been building up the stream has deposited the nucleus for great agricultural movements, where hundreds of thousands of profitable farms may—and will be established. The climate is salubrious, the markets are right at hand, and the land is capable of almost any growth. There is water in the hills, which may be developed and brought to these lands, or wells may be sunk for irrigation purposes—either feasible. This great valley is one of the wonders of the country hereabouts, a wonder that will be enhanced tremendously when it is dotted in every direction by prosperous farms, cozy homes and with the "life" of humanity abounding. One cannot conceive what will be the result—and that this result is on the way, is proven by the fact that outside interests are being sold for actual settlement instead of speculation.

Agriculture is Prosperous

In 1910 a company of California people came in and bought a large tract of land 30 miles west of Hermosillo. The next year they fenced the entire place, bought machinery for farming on a large scale, erected barns, and many other improvements. Meanwhile they prepared and planted some land, not much—but the product from this paid every dollar of the expense of these improvements. For this year they planted a large area in wheat. Without irrigation, this crop is valued at \$50,000, the crop making 40 and more bushels per acre. This enterprise is of more than ordinary moment, because in this section no irrigation plants have as yet been installed, so dependence is entirely on the rainfall. Experience teaches that there is sufficient abundance each year to insure a good crop, and that every third or fourth year there is so much rain that a "bumper crop" is certain. The masses of the farm mentioned states that the lean years are their way, while the fat ones make a big profit for all the years.

THIS WOMAN'S
TROUBLES GONE

Terrible Cramps, Dizzy Spells, Nervousness, Misery—Her Story of How She Got Well Again.

Hindsboro, Ill.—"Your remedies have relieved me of all my troubles. I would have such bearing down misery and cramps and such weak, nervous, dizzy spells that I would have to go to bed. Some days I could hardly stay up long enough to get a meal."

"The doctor's medicine did me no good so I changed to Lydia E. Pinkham's Vegetable Compound and got good results from the first bottle. I kept on taking it and used the Sarsaparilla Wash with it, until I was well again. I think every woman who suffers as I have, could take no better medicine."—Mrs. CHARLES MATTISON, Box 58, Hindsboro, Ill.

Testimony of Trained Nurse.

Cathlamet, Wash.—"I am a nurse and when I do much lifting I have a female weakness, but I take Lydia E. Pinkham's Vegetable Compound and I cannot say enough in praise of it. I always recommend it for female troubles."—Mrs. ELVA BARBER EDWARDS, Box 54, Cathlamet, Wash.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above—they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

That's Sonora. The bean and garbanzo crops are large this season and larger acreages are in growth. Very many Americans have come in, buying in small tracts in many cases and actually settling and improving the land and making homes. They are certainly content and prosperous.

One judges, in a way, an entire state by its capital—and if this be done here there will be no anxiety for the present or future of Sonora. But I "went down the line" through the state, through Sinaloa and through Tepic; and I shall write of the sections as I came to them, not giving all from one place. From Hermosillo I went to Ensenada, the Southern Pacific's model town; to Guaymas, "the pearl of the Pacific"; to San Blas; to Culiacan; to Navolato; to Mazatlan; to Acapulco; to Tepic. My impression at Hermosillo was borne out throughout the trip—but what I really saw will make several more stories. At Hermosillo, however, I found the old friends and made new, gained a new insight of the state's affairs and became more than ever imbued with its enterprising and hospitable, progressive spirit. It is a city of nation-making people.

CLARK TO SPEAK

LOUISVILLE, Ky., April 5.—Democrats great and small, from many parts of Kentucky and from other states as well, will worship tomorrow night at the shrine of democracy's patron saint, Thomas Jefferson, the occasion being a banquet under the auspices of the Jefferson County Democratic club of this city. Speaker Clark will be the guest of honor and principal orator. His subject will be "Thomas Jefferson." J. Hamilton Lewis of Chicago will speak on "The Democratic Issues of 1912."

EASTER SALE

The Methodist ladies will hold their regular monthly food sale at the Standard Furniture company Saturday, colored eggs, aprons and home baking for sale.

KNIGHTS TEMPLAR ATTENTION.

All members of Bisbee Commandery No. 4 and surrounding Knights are respectfully requested to attend Easter services at St. John's Episcopal church Sunday morning, April 7th. Assemble at Masonic Temple at 10 a. m. Sharp.

W. R. BANKS, Recorder.

ACKNOWLEDGE

Bisbee Has to Bow to the Inevitable—Scores of Endorsements

After reading the public statement of this fellow-sufferer given below, you must come to this conclusion: A remedy which cured years ago, which has kept the kidneys in good health since, can be relied upon to perform the same work in other cases. Read this:

"I, F. Diehl, 113 E. Tenth St., Tucson, Ariz., says: 'Whenever I have need of a medicine for kidney or bladder trouble I use Doan's Kidney Pills, and a few doses always bring relief. In 1902 I gave a public statement in their praise and I now cheerfully confirm all I then said. I had pains in the small of my back undoubtedly the result of a cold which had settled in my kidneys, and the trouble caused me considerable annoyance. I knew that it would be a bad thing for me to neglect my case and I accordingly got a box of Doan's Kidney Pills. They promptly relieved me and I continued using them until all trouble from my kidneys was removed. Since then I have always felt justified in telling of the merit of Doan's Kidney Pills.'"

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

LIGHT DISCLOSES EITHER
FILTH OR PURITY

While darkness hides them, this is why our TANNHAUSER

Beer is always bottled at the Brewery only in crystal white bottles, thus insuring cleanliness and purity. Can you see what is in a black bottle? Order a case today and be convinced that Beer bottled at the Brewery is the best. Everywhere for sale, 2 doz. Qts. \$3.50. For any information call Phone 243.

Tomato Oil in Commerce.

Tomato oil, useful for varnish and as a fuel, is now made from the waste of the tomato-preserved industry. In the province of Pomer, Italy, where \$4,000 tons of tomatoes have been used in the last year, waste has begun about 15 per cent, and partial freeing this from water by pressing, left a mass—chiefly of seeds—of about 4,000 tons. The seed mass, by cold compression, yields 15 per cent of golden yellow oil.

Important Thing to Know.

It is easy to understand why the nation is willing that millions be spent on a weather bureau. If we can only foretell through weather experts, goose bone prophets, corn husk prognosticators or in any other way just what the weather will be from day to day, living will be made a great deal easier for us all. We can get the day in out of that thunderstorm or hold up that shipment of perishable stuff that a solid freeze and zero weather will utterly ruin.
